

## BREAKING NEWS ON TCPA

Telephone Consumer Protection Act 47 U.S.C Section 227 has been found to be unconstitutional on March 13, 2002 by the U.S. District Court - Eastern District of Missouri. Please visit our website... from our homepage we provide a link to the 25 page decision.

# BREAKING NEWS

This is good news on the faxing front, but please consult with your own attorney for what this will mean regarding your company's faxing activities. As in all legal decisions, this is subject to the appeal process so it will not be over until the decision is affirmed or overturned by higher courts. While the decision was in Missouri, it also contains a great deal of information regarding existing state fax laws. Do not take any action based on this decision without proper legal counsel. Please contact Copia for the name of an attorney that is current with the law and this decision.

### PDF Support

Version 7 now supports inbound fax to e-mail, using the PDF format. The new administration program for the FaxFacts Client allows you to select .TIF or .PDF format fax attachments.

### New Administrator Program

A new program sets up local copies and administration programs for the FaxFacts administrator. Download [ftp.copia.com\install\install\IFFADMIN.EXE](ftp.copia.com/install/install\IFFADMIN.EXE). This program will install SETUPADMIN.EXE in the copia directory of your program files directory. Run the SETUPADMIN program to install the group of administration programs.

### Expansion in your Future?

Want to grow... without tying up your money? Many people don't know that Copia offers leasing options. Contact your sales representative for more details.

### COMING UP IN FUTURE ISSUES OF LATELY...

**Look...** for an in-depth look at all the new features in the recently released CopiaFacts Version 7.1. In the meantime check out [www.copia.com/version71.html](http://www.copia.com/version71.html) and look for a new website coming soon!
