SPECIAL INVITATION

CopiaFacts System Evaluation Campaign

The idea behind this campaign is to help our customers do more with less during trying economic times. Many of you may not be aware of the automation features that CopiaFacts provides. The more we can help you to automate computer tasks, the more time you will have to focus on your core business objectives. We'll talk about how you are currently using your system, what you like and don't like about it, and how you can integrate CopiaFacts more tightly with other applications to automate your fax and email processing. You may be running on older versions of the engine and not aware of the new features that have been added since the last upgrade. This is a chance for you to learn how to take full advantage of your CopiaFacts system using the latest version.

We are extending this offer to our customers under maintenance. Schedule a telephone session with a technical representative today by calling your sales representative, call 800-689-8898 or 630-388-6900.
